UN PRI 2021 5-star rating in the "direct-listed equity - active fundamental incorporation module" category.

BMO Asset Management Inc., together with its affiliate BMO Investments Inc., as BMO Global Asset Management (BMO GAM), together with its former asset management affiliates in Europe, Asia and the United States, was awarded a 5-star rating in the 2021 Direct Listed Equity - Active Fundamental – Incorporation module by the United Nations Principles for Responsible Investment (UN PRI). The UN PRI is an investor initiative in partnership with UNEP Finance Initiative and UN Global Compact (see www.unpri.orgopens in new window). UN PRI does an independent assessment of all global signatories annually through an extensive questionnaire. Five stars is the highest rating from the UN PRI awarded in this module

Comprehensive Fixed Income ETFs

Duration: A measure of the sensitivity of the price of a fixed income investment to a change in interest rates. Duration is expressed as number of years. The price of a bond with a longer duration would be expected to rise (fall) more than the price of a bond with lower duration when interest rates fall (rise).

Yield to maturity (YTM): The total expected return from a bond when it is held until maturity - including all interest, coupon payments, and premium or discount adjustments.

^{*}Strategic Asset Allocation mix

Active Alpha-Seeking Strategies

Alpha: A measure of performance often considered the active return on an investment. It gauges the performance of an investment against a market index or benchmark which is considered to represent the market's movement as a whole. The excess return of an investment relative to the return of a benchmark index is the investment's alpha.

Management Expense Ratios (MERs) are as of September 30, 2023, unless denoted by a dagger (†), in which case the MERs are estimated as the funds are less than one year old. FE = Front-end, LL = Low Load. Low Load and DSC purchase options are no longer available for sale.

The cost of the underlying ETFs are included in the MERs of the ETF based BMO Mutual Funds. BMO Mutual Funds refers to certain mutual funds and/or series of mutual funds offered by BMO Investments Inc., a financial services firm and separate legal entity from Bank of Montreal. Commissions, trailing commissions (if applicable), management fees and expenses all may be associated with mutual fund investments. Please read the fund facts or prospectus of the relevant mutual fund before investing. Mutual funds are not guaranteed.

Roadmap Disclaimer

Distribution yields are calculated by using the most recent regular distribution, or expected distribution, (which may be based on income, dividends, return of capital, and option premiums, as applicable) and excluding additional year end distributions, and special reinvested distributions annualized for frequency, divided by current net asset value (NAV). The yield calculation does not include reinvested distributions. **Distributions are not guaranteed, may fluctuate and are subject to change and/or elimination. Distribution rates may change without notice (up or down) depending on market conditions and NAV fluctuations.** The payment of distributions should not be confused with the BMO ETF's performance, rate of return or yield. If distributions paid by a BMO ETF are greater than the performance of the investment fund, your original investment will shrink. Distributions paid as a result of capital gains realized by a BMO ETF, and income and dividends earned by a BMO ETF, are taxable in your hands in the year they are paid. **Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base goes below zero, you will have to pay capital gains tax on the amount below zero.**

Cash distributions, if any, on units of a BMO ETF (other than accumulating units or units subject to a distribution reinvestment plan) are expected to be paid primarily out of dividends or distributions, and other income or gains, received by the BMO ETF less the expenses of the BMO ETF, but may also consist of non-taxable amounts including returns of capital, which may be paid in the manager's sole discretion. To the extent that the expenses of a BMO ETF exceed the income generated by such BMO ETF in any given month, quarter, or year, as the case may be, it is not expected that a monthly, quarterly, or annual distribution will be paid. Distributions, if any, in respect of the accumulating units of BMO Short Corporate Bond Index ETF, BMO Short Federal Bond Index ETF, BMO Short Provincial Bond Index ETF, BMO Ultra Short-Term US Bond ETF will be automatically reinvested in additional accumulating units of the applicable BMO ETF will be immediately consolidated so that the number of outstanding accumulating units of the applicable BMO ETF will be the same as the number of outstanding accumulating units of the applicable BMO ETF will be the distribution. Non-resident unitholders may have the number of securities reduced due to withholding tax. Certain BMO ETFs have adopted a distribution reinvestment plan, which provides that a unitholder may elect to automatically reinvest all cash distributions paid on units held by that unitholder in additional units of the applicable BMO ETF in accordance with the terms of the distribution reinvestment plan. For further information, see the distribution policy in the BMO ETFs' prospectus.

Annualized Distribution Yield: This yield is calculated by taking the most recent regular distribution, or expected distribution, (excluding additional year end distributions) annualized for frequency, divided by current NAV. The yield calculation does not include reinvested distributions.

Duration: A measure of the sensitivity of the price of a fixed income investment to a change in interest rates. Duration is expressed as number of years. The price of a bond with a longer duration would be expected to rise (fall) more than the price of a bond with lower duration when interest rates fall (rise).

Yield to maturity (YTM): The total expected return from a bond when it is held until maturity – including all interest, coupon payments, and premium or discount adjustments.

The distribution yield, yield to maturity and duration of each ETF is as of September 20, 2024.

Risk Ratings are determined based on the historical volatility of a BMO ETF as measured by the standard deviation of its performance against its mean. The risk categorization of a BMO ETF may change over time and historical volatility is not indicative of future volatility. Risk Ratings for new BMO ETFs are as per prospectus.

The Index is a product of S&P Dow Jones Indices LLC or its affiliates ("SPDJI"), and has been licensed for use by the Manager. "Russell®" is a trademark of Frank Russell Company.

Solactive AG ("Solactive") is the licensor of Solactive Index. The ETF that is based on the Solactive Index is not sponsored, endorsed, promoted or sold by Solactive in any way and Solactive makes no express or implied representation, guarantee or assurance with regard to: (a) the advisability in investing in the ETF; (b) the quality, accuracy and/or completeness of the Solactive Index; and/or (c) the results obtained or to be obtained by any person or entity from the use of the Solactive Index. Solactive reserves the right to change the methods of calculation or publication with respect to the Solactive Index. Solactive shall not be liable for any damages suffered or incurred as a result of the use (or inability to use) of the Solactive Index.

The ETF referred to herein is not sponsored, endorsed, or promoted by MSCI and MSCI bears no liability with respect to the ETF or any index on which such ETF is based. The ETF's prospectus contains a more detailed description of the limited relationship MSCI has with the Manager and any related ETF.

This communication is intended for informational purposes only and is not, and should not be construed as, investment and/or tax advice to any individual. Particular investments and/or trading strategies should be evaluated relative to each individual's circumstances. Individuals should seek the advice of professionals, as appropriate, regarding any particular investment.

Commissions, management fees and expenses (if applicable) all may be associated with investments in mutual funds and ETFs. Trailing commissions may be associated with investments in certain series of securities of mutual funds. Please read the ETF facts, fund facts or prospectus of the relevant mutual fund or ETF before investing. The indicated rates of return are the historical annual compounded total returns including changes in share or unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Mutual funds and ETFs are not guaranteed, their values change frequently and past performance may not be repeated.

For a summary of the risks of an investment in BMO Mutual Funds or BMO ETFs, please see the specific risks set out in the prospectus of the relevant mutual fund or ETF. BMO ETFs trade like stocks, fluctuate in market value and may trade at a discount to their net asset value, which may increase the risk of loss. Distributions are not guaranteed and are subject to change and/or elimination.

BMO Mutual Funds are offered by BMO Investments Inc., a financial services firm and separate entity from Bank of Montreal. BMO ETFs are managed and administered by BMO Asset Management Inc., an investment fund manager and portfolio manager and separate legal entity from Bank of Montreal.

BMO Global Asset Management is a brand name under which BMO Asset Management Inc. and BMO Investments Inc. operate.
